Labor Day Weekend Randori & Weapons 4-Day Intensive

*With George Ledyard
Aikido 6th Dan*

Aikido Eastside has been holding these Randori and Weapons Intensives for over twenty years. We have constantly refined our understanding of how “principle” functions in both randori and weapons work. We have had an international selection of attendees of all levels of experience over the years. Even those who have attended multiple Intensives over the years always leave feeling as if they have made another jump in their training. For those who have never before attended one of these Intensives, we guarantee a paradigm shifting experience.
