**FEBRUARY 24-25-26, 2012**

( O'Sensei )

said that Aikido "is a way to reconcile the world and make human beings one family".  
It is in this spirit that we come together to strengthen Budo, Aiki and Aikido,  
by training and learning together without the restrictions of organizations,  
affiliation or style. To create a fabric of understanding woven from the many colors,  
textures and experiences of all who share O'Sensei's mission.

**We come together to create a common moving language  
of Aiki with some of the most intuitive and progressive teachers of our time.**
